

Project Initialization and Planning Phase

Date	26 June 2026
Team ID	xxxxxxx
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Students often face learning difficulties and emotional challenges such as confusion and frustration. Existing learning platforms do not understand learners' emotions or provide personalized guidance. The Emotion Detection & Learning Support Engine solves this by detecting emotions from student text and delivering AI-powered, personalized learning support.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student struggling with studies	Understand difficult topics and complete assignments	I don't receive personalized guidance based on my emotions with no co-applicant income.	Existing learning platforms cannot detect my emotional state or provide adaptive support	Confused, frustrated, and less motivated to learn
